Notes:

(1) Students are required to complete and pass a prescribed training program within the normal length of study. Details of the program, its requirements and schedule will be announced on the website of the Industrial Training Center (http://www.ust.hk/itc) or website of the department in the first year Fall term. Training normally takes place in the Winter and Summer terms starting from the first year of study. For recording the overall training results, students are normally registered for the course in their last term of study.

(2) Students entering with AL Economics take ECON 2113; however, those with grade B or above in HKAL Economics will take ECON 2913. All other students without AL Economics background, including those entering with AL Business and Economics, take ECON 2103.

(3) Students cannot replace this course by LANG 1110 (prior to 2012-13)/1111 (prior to 2011-12) for graduation purposes. Students recruited from Mainland China will replace this course by a free elective. For international students who are assessed as having inadequate Chinese background to take LANG 1112, they will replace this course by LANG 1120.

(4) Students who have grade E or better in AL Pure Mathematics or in AL Applied Mathematics are not required to take MATH 1018.

(5) Chemical Engineering electives are to be chosen from CENG courses at 4000-level or above taken in 2011-12 and after, or at 300-level or above taken prior to 2011-12. ENGG 4950 can be used to count toward the CENG elective requirement.

(6) ISOM 2010 cannot be used to count toward the SB&M elective requirement. Of these 29 credits, at least 9 credits must be at 4000-level or above taken in 2011-12 and after, or at 300-level or above taken prior to 2011-12; at least 9 credits must be at 3000-level or above taken in 2011-12 and after, or at 200-level or above taken prior to 2011-12; and at least 12 credits (3 courses) of business elective courses must be offered by HKUST School of Business and Management.

A minimum of 147 credits is required for the BEng program in Chemical Engineering and BBA program in General Business Management. For students who are required to take MATH 1018, the minimum total required is 151 credits.
