

(For students admitted in 2019-20 under the 4-year degree)

School of Business and Management

In addition to the requirements of their major programs, students are required to complete the School Requirements as shown below.

Some courses can be used to fulfill both School Requirements and University Common Core Requirements. Students may reuse a maximum of 6 credits of these courses to count towards both Requirements.

Unless approved by the Dean or the Dean's designate, students are not allowed to use courses included in the School Requirements to fulfill the Major or Option requirements.

Students may use no more than 6 credits earned from courses offered in pure online delivery mode to satisfy the graduation requirements of a degree program. This 6-credit limit does not apply to credits obtained through the credit transfer procedures of the University.

All courses counted towards the School Requirements under the School of Business and Management, as well as those used to fulfill the Major Requirements, will be included in the calculation of the major cumulative grade average (MCGA).
