

(For students admitted in 2023-24 under the 4-year degree)

School of Business and Management

In addition to the requirements of their major programs, students are required to complete the School Requirements as shown below.

Unless approved by the Dean or the Dean's designate, students are not allowed to use courses included in the School Requirements to fulfill the Major or Option requirements.

Students may use no more than 6 credits earned from courses offered in self-paced online delivery mode to satisfy the graduation requirements of a degree program. This 6-credit limit does not apply to credits obtained through the credit transfer procedures of the University.

All courses counted towards the School Requirements under the School of Business and Management, as well as those used to fulfill the Major Requirements, will be included in the calculation of the major cumulative grade average (MCGA).

Under the new 30-credit Common Core Program which is applicable to students admitted to the University in 2022-23 and thereafter, courses that have been counted towards School and/or Major Requirements are not allowed to be reused for fulfilment of the University Common Core Requirements.
